

## Chairperson's Overview

### **Dear Partners,**

It gives me immense pleasure to introduce the Master's Programme in Public Policy Law and Governance (MPPLG) offered by the Centre of Excellence in Public Policy Law and Governance at IIT Kharagpur. Established to bridge the gap between policy, law, and governance, this program exemplifies IIT Kharagpur's commitment to addressing the complexities of public administration and socio-legal frameworks through research, education, and outreach.

Our Centre is driven by the vision of fostering equitable, sustainable, and inclusive policy solutions while nurturing ethical leadership. The MPPLG program is a testament to this vision, designed to equip students with the knowledge and skills to critically analyze, formulate, and evaluate public policies. The program blends theoretical rigor with practical experience through case studies, fieldwork, and policy simulations, ensuring a holistic learning experience.

Students in the MPPLG program gain expertise in areas such as policy analysis, legal frameworks, governance structures, and public administration. They are trained to navigate complex governance issues and tackle pressing challenges in social, economic, and environmental domains. With special emphasis on experiential learning, our students engage in internships, research projects, and interactive policy discussions with thought leaders and practitioners, preparing them to contribute meaningfully to policymaking and governance.

The success of our program is reflected in the growing network of alumni who have gone on to excel in various sectors, including government agencies, NGOs, think tanks, international organizations, and the private sector. Our commitment to innovation, interdisciplinary learning, and practical exposure ensures that CoEPPLG remains a hub for developing thought leaders in public policy and governance.

I invite you to explore our program, connect with our vibrant academic community, and engage in opportunities that will shape the future of governance and public policy. Together, we can create a meaningful impact on society and inspire the next generation of leaders.

Warm regards,

**Prof. Dipa Dube**
