Message from the Director

04.11.2024

Welcome to the Centre of Excellence in Public Policy, Law, and Governance at IIT Kharagpur. As we embark on this journey, I am filled with optimism, about the transformative work we will undertake together. Established to foster interdisciplinary research, teaching and outreach, the Centre aims to address complex challenges in public policy and governance, making a tangible impact on India's socio-legal landscape.

Our Centre is a testament to our commitment, addressing the multifaceted challenges the society faces today. By integrating the disciplines of law, policy and technology, we aim to produce innovative research and actionable solutions that enhance legal governance for technology, environment and public administration, promoting social justice. In an era where these fields are increasingly intertwined, our interdisciplinary approach will be vital in shaping effective policies that resonate with the needs of our communities.

We aspire to be a hub of thought leadership, where scholars, practitioners, and policymakers collaborate to tackle pressing issues from environmental governance and public administration to the legal frameworks surrounding emerging technologies. Our academic programs are designed to equip students and professionals with the critical analytical tools necessary to navigate and influence the evolving landscape of regulation and governance.

As we strive to be catalysts for evidence-based policymaking, I encourage each of you to engage actively with our initiatives and contribute your unique perspectives. Together, we can nurture a new generation of leaders who are not only knowledgeable but also committed to designing and implementing policies that are ethical, inclusive, and future-ready.

I look forward to our collective efforts in making a meaningful impact on our society.

Best Wishes!

(V K Tewari)
